

## Joshua Luckow, MBA, Chief Executive Officer

---

An international executive, Joshua Luckow has two decades of experience in public and private global firms ranging in size from \$180 million to \$52 billion. For fourteen years, Joshua had the rare opportunity to work in every key area of Canyon Ranch. He worked alongside the founders and other senior executives on strategy, branding, and cross-company financials. He oversaw some of the most complicated operations of the company—simultaneously managing over a dozen separate business units—while jointly overseeing the flagship property in Arizona. As a member of the development team, Joshua worked on international real estate projects and consumer products.

As an internal auditor, Joshua spent years evaluating and advancing the operations, financials, and internal control structure of the business. Joshua is recognized for his ability to achieve profits and brand equity through market-driven growth and full P&L responsibility. He is known for his visionary and strategic capabilities, servant leadership style, ability to execute, and gift for global team building. He spent several years in the information technology industry as a software developer, consultant, and analyst, working for Arthur Andersen, Merck and Allied Signal, now Honeywell. He has a passion for collaborating and uniting business leaders, entrepreneurs, and communities through his involvement in institutions such as the United Nations Global Sustainability Index Institute and NEXUS Executives, a company he co-founded and led in the United States from 2009-2017.
